Make moving money effortless.

Every business that moves money deals with banks, payment methods and providers, and each one adds an integration, a cost and a risk. Most providers solve only one piece. Omnea is one regulated platform for all of it: we connect you to your banks, move money for you, and let you build your own payment products, run by people who do payments for a living.

WHY BUSINESSES CHOOSE OMNEA

1

Start where your problem is

Connect for treasury teams, Move for businesses that collect and pay out, Grow for platforms and app builders.

2

Add more without starting again

One platform and one integration, so each next step builds on the last.

3

Trust it with your money

Registered and regulated, ISO 27001 certified, with custody through a licensed FSP and an independent nominee.

4

Let us run it

Our team operates, monitors and supports every service, backed by 27 years in payment systems.

Overleaf: the evidence behind each point, and how to start.

THE EVIDENCE BEHIND EACH POINT

Three ways to start, one platform underneath, and a team that has done this since 1999.

1

Start where your problem is

Connect · Multi-bank payments: every bank from one place, with 22 capabilities beyond the connection

Move · Collect and pay out: many payers settled as one; funded batches paid out within a day

Grow · Build on Omnea: your product, with customers' money held in custody in their names

2

Add more without starting again

Five services through one integration: onboarding and verification, collection, disbursement, account management and reporting, and value-added services

File, API or both, on the same platform

3

Trust it with your money

Registered Third Party Payment Provider and PASA System Operator

ISO 27001 certified

Custody through a licensed FSP and an independent nominee; Omnea never holds customer funds in custody

4

Let us run it

Founded in 1999 by Dr Philip Johann Tromp with the team that built SAMOS

R1.24 trillion in payment instructions a year

99.8% platform uptime, 24/7 standby for critical incidents

LIVE ON THE PLATFORM

Groups running payments across many entities and banks from one login · a commuter payments app for minibus taxi passengers · automatic savings for small merchants · a rewards club for a food retail chain.

START HERE

Start with a discovery session.

We learn how money moves through your business, agree where you start, and build a business case with your own numbers.
