Build your product, not a payments company.

Platforms and app builders want to offer accounts, payments and services to their customers. Doing it alone means licences, sponsor banks, compliance and operations before the first sale, and holding other people's money. Build on Omnea instead: the building blocks are already in place, and your customers' money is held in custody in their own names.

WHY PLATFORMS CHOOSE GROW

1

Launch in months, not years

Banks, providers and compliance are already in place: build new, add to your app, or launch with ours.

2

Your customers' money is protected

Held in custody in their own names, through a licensed administrator and an independent nominee.

3

More to offer your customers

Real-time transfers between accounts, third-party services and split payments for marketplaces.

4

Risk managed for you

Every account monitored, and suspicious payments stopped before money leaves.

Overleaf: the evidence behind each point, and how to start.

THE EVIDENCE BEHIND EACH POINT

Everything in Connect and Move, plus custody, account monitoring, third-party services and payout controls.

1

Launch in months, not years

APIs for onboarding, collections, payouts, accounts and value-added services

Build a new app, add to your existing app, or launch with our white-labelled application

Web, mobile, USSD, messaging, point of sale and partner apps

A sandbox, an integration pack and our engineers through testing

2

Your customers' money is protected

Omnea runs the platform and never holds customer funds in custody

A licensed administrator administers the accounts

An independent nominee holds the funds, separate from everyone's creditors

Like Yap's rai stones: the money stays put while ownership moves

3

More to offer your customers

Payments between accounts settle in real time on the platform

Airtime, data, electricity, bills, vouchers, cashback and point of sale

Marketplace payments split at source into each party's own account

4

Risk managed for you

Every account monitored for fraud and AML risk

Payout controls stop suspicious payments before money leaves

Onboarding and verification, with PEP and sanctions screening

LIVE ON THE PLATFORM

A commuter payments app for minibus taxi passengers · automatic savings for small merchants, inside the app they already use · a rewards club for a food retail chain, run with a loyalty partner.

START HERE

Start with a discovery session.

Tell us what you want to build. We'll show you the fastest way to launch it, with a business case built on your own numbers.

Custody and administration of iAccounts are provided by Automated Outsourcing Services (Pty) Ltd (AOS), an authorised financial services provider (FSP 650), with Investors Independent Nominee (Pty) Ltd (IIN) as its independent nominee. Omnea is a registered Third Party Payment Provider and is not a financial services provider. Current as of November 2026.
