GROW · MARKETPLACE PAYMENTS

Get every party paid, without holding their money.

Marketplaces connect buyers with many sellers. But taking payment on behalf of others means holding other people's money, verifying every seller and paying everyone correctly: a payments operation most founders never planned to run. Omnea runs it for you. Every payment is split at source into each party's own account, inside Omnea's regulated set-up.

WHY MARKETPLACES CHOOSE OMNEA

1

Never hold your sellers' money

Each payment is split at source into each party's own account, including your commission.

2

Launch without becoming a payments company

Payment processing, seller verification and compliance are already in place.

3

Everyone pays and gets paid their way

Buyers choose from 10+ payment methods; sellers are paid to a bank account, mobile wallet or ATM cash voucher.

4

Every rand accounted for

Every split reconciled and settled, with fraud and AML monitoring on every account.

EXAMPLE · ONE PAYMENT, SPLIT AT SOURCE

R1,000
